

A versatile full-stack developer who thrives on building responsive and dynamic web applications. Proficient in both frontend and backend technologies such as React and Spring Boot, with hands-on experience delivering user-friendly and efficient web solutions. Ready to bring fresh ideas to web development projects and contribute to high-performance web environments.

TECHNOLOGICAL SKILLS

- **Programming Languages:** C++, Assembly, C, Java, Python , VHDL.
 - **Frameworks & Libraries:** SFML, React, Bootstrap, NumPy, pandas.
 - **Databases:** MySQL, SQL, PostgreSQL, MongoDB.
 - **DevOps & Tools:** GitHub, Docker, Jenkins, Git.
 - **Web Development:** HTML5, CSS3, JavaScript, Thyme leaf, Spring (Java).
 - **Operating system:** Windows, Linux.
-

EDUCATION

B.Sc. | Computer Science | Hadassah Academic College | 2021 - 2024

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Software Engineering, Database Systems, Web Development, QA.

TECHNOLOGICAL PROJECTS

2024 | Memory Game (React)

- Built a dynamic memory card game using React, with customizable grid sizes and difficulty levels.
- Implemented card flipping, matching logic, and score tracking using React hooks.
- Designed a responsive and dynamic game board, allowing users to customize the game with different grid sizes and difficulty levels. The project included features like session-based user rankings and a leaderboard.

Top skills: Java, SpringBoot, Thymeleaf, JPA, MySQL, Web Development, Problem-Solving.

2024 | Pizza Ordering Website

- Developed a full-stack pizza ordering website using Spring Boot for backend logic and Thyme leaf for dynamic server-side rendering. The website allowed users to browse pizzas, add them to a cart, and place orders, with data stored in a MySQL database.
- Implemented user authentication, session management, and persistence with JPA, creating a robust and secure ordering system. The project featured a one-to-many relationship between users and orders, enabling users to view their order history.

Top skills: Java, SpringBoot, Thymeleaf, JPA, MySQL, Web Development, Problem-Solving.
